Christy's—Complete Solutions for Waterworks & Pipeline Professionals

Christy's brings together a unique combination of products and services for the waterworks market.

Experience the Christy's Advantage

Simplified sourcing – a full range of professional products available from a single source.

Consolidate vendors – one-stop shopping in multiple categories reduces vendors, makes “making freight” easy. Improve your turns and your margins.

In-depth knowledge – experienced team with comprehensive knowledge of applications, specifications and best practices.

Polyethylene Encasement (Polywrap/Layflat)

Christy's Polywrap is an, economical and effective method of corrosion protection for cast iron, ductile iron, steel pipe, valves & fittings. Our product is manufactured to the highest standards in accordance with AWWA C105. Choose from a wide range of sizes and colors in linear low density and high density cross laminated material.

Cathodic Protection/Corrosion Control

Christy's offers a comprehensive line of Magnesium and Zinc sacrificial anodes as well as zinc caps. We carry a full line of accessory items to take you from pipe to grade, including: Test Stations, Custom Test Boards, Reference Cells, HMWPE Cathodic Cable, Custom Bond Cables, Cadweld Equipment, Insulating Couplings.

Casing Spacers

Christy's offers Steel, Stainless Steel & Polyethylene casing spacers as well as end seals. Our casing spacers are superior to traditional banded wood skids. Depend on the performance and reliability of our casing spacers.

Pipeline Marking Products

Christy's delivers a complete line of detectable and non-detectable marking tapes through 12" width. Custom legends can be manufactured to your specifications. Additionally, Christy's provides specialty signage, decals, valve markers, marking paint as well as line markers, marker balls and locating devices. Count on Christy's for the industry's largest selection of smart marking solutions.

Coatings & Mastics

Christy's offers coatings to accommodate your corrosion protection requirements. Popular products include HD50 Low VOC Mastic, NO-OX-ID A Special WW (Special WW Cosmoline type rust preventative) and NO-OX-ID PWL-600 (protective coating).

Lubricants & Solvent Cements

Christy's Pro Lube Pipe Lubricant is NSF 61 Certified and stocked in quarts, gallons and five gallon containers to meet your needs. Christy's PVC solvent cements and primers provide outstanding results across a wide variety of applications and jobsite conditions.

Geotextiles

No matter the project, Christy's has the geotextile solution. We offer a comprehensive range of durable products for drainage, filtration, soil stabilization and erosion control. Choose from a variety of roll sizes and options, plus a full range of accessories make installation a breeze.

Specialty Tapes

Christy's stocks a wide range of tapes for any of your requirements. Wax tape, pipe wrap tape, PTFE tape & duct tape are just a few examples of the wide variety of quality tapes we offer.

Waterworks Tools

Designed by professionals for professionals, Christy's offers a wide selection of high quality waterworks tools. Our selection includes meter keys, operating wrenches, test plates, pipe supports, test caps, vent caps, stem extensions, soil probes and much more.
