**HOW TO SPECIFY CHRISTY'S  
RECLAIMED WATER SIGNAGE**

# SIGNAGE & DECALS

## SPECIALTY APPLICATION MARKING DECALS

Christy's™ specialty decals are designed to identify all above ground identification requirements. They are ideal for control panels, controllers, enclosures and above ground piping. They can be color-coded for your specific requirements. Special legends, logos and layouts are available. The decals are manufactured from a 3.5 mil flexible vinyl base with a permanent acrylic adhesive backing on a 90# stayflat liner. Both the background and legend are printed with a UV cured vinyl ink. The entire decal is clear flood over-printed for superior weathering and UV protection.

## RECYCLED/RECLAIMED WATER MARKING DECALS

The following are samples of our standard stock product. Customized products can be manufactured in almost any size or color. All decals are backed with a permanent acrylic adhesive.

**General Reclaimed Decals:** Ideal for all applications utilizing Recycled/Reclaimed water systems.

ID.4200 Color - PMS 522C

ID.DECL.REC1218  
(12" x 18")

### Controller Marking Decals:

Ideal for marking controllers or enclosures controlling Recycled/Reclaimed water systems.

ID.4100 Color - PMS 522C

### POTABLE WATER MARKING DECALS

Christy's™ Potable Water decal is designed to identify any application utilizing potable or drinking quality water. It has a permanent, acrylic-adhesive backing for easy attachment to controller units, panels or piping.
