Sacrificial Anodes: Zinc & Magnesium

Chisty's offers a comprehensive line of Magnesium and Zinc sacrificial anodes as well as zinc caps. Either packaged or bare, our anodes are manufactured to meet industry standards.

CADWELD® Equipment (Exothermic Welding)

CADWELD connections are the accepted method of attaching cathodic protection leads to pipes (steel or cast iron), tanks and structures. Christy's is a proud distributor for Erico® Cadweld Equipment for Cathodic Protection. We carry a full inventory of Cadwelders, Weld Metal, Sleeves and Accessories. In addition, we stock the Royston® Handy Caps and Roybond 747 Spray Primer to protect connections.

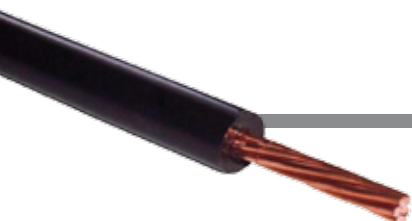

Cathodic Protection Test Stations

Test Stations can be used as an access point to monitor the corrosion rate of a pipeline or structure and to keep all the lead wires together for testing. There are various different styles and manufacturers of Test Stations available in the market. Christy's stocks many different styles of test stations. We can also provide non-stock stations to your specifications. Custom Micarta® test boards are also available for specification.

Reference Cells

The STAPERM Permanent Reference Electrode is a long-life, highly stable electronic device for measuring the voltage potential of structures to be cathodically protected or measured in the surrounding electrolyte. Christy's stocks both the packaged as well as the permanent ceramic style of Copper Sulfate Reference Cells. The standard lead wire is 30' of #14 Yellow RHH/RHW wire. Other wire configurations are also available.

HMWPE Cathodic Protection Cable

We stock #2-#12 gauge Stranded Black HMWPE Cathodic Protection Cable. This cable can be cut to meet your material requirement. Custom HMWPE Bond Cables are also available with or without sleeves.

Polyethylene Encasement (Polywrap/Layflat)

Polywrap has been proven to be an effective method of protecting ductile iron pipe from corrosion. It prevents contact between the pipe and surrounding soil to help prevent corrosion. Ours is made to the most current AWWA C105 Specifications. We stock the 8 MIL Linear Low Density Polywrap in Clear, Black, Blue, Green and Purple. Our Polywrap is available in different perforations to accommodate the length of your pipe joint as well as in a non-perforated continuous tube form. We also manufacture polywrap in a 3' x 100' Fitting Wrap making wrapping valves and fittings quicker and easier. High Density 4 MIL Cross Laminated Polywrap is also available for special order.

Coatings & Mastics

Christy's offers various different coatings to accommodate any of your corrosion protection requirements. HD50 Low VOC Mastic, NO-OX-ID A Special WW rust preventative and NO-OX-ID PWL-600 protective coatings are just a few we keep in stock.

Corrosion Protection & Splicing Tapes

Christy's stocks a wide range of tapes for any of your requirements. Wax tape, pipe wrap tape and 3M® splicing tapes are just a few examples of the wide variety of tapes we offer.

Casing Spacers

Casing Spacers performance and reliability are a far superior alternative to inferior banded wood skids. Christy's is proud to carry the CCI line of Steel, Stainless Steel & Polyethylene casing spacers as well as end seals, as required for your project.

Christy's – Supporting Distributors with Complete Solutions for Waterworks & Pipeline Professionals

Christy's brings together a unique combination of products and services for the waterworks market.

Experience the Christy's Advantage

Simplified sourcing – a full range of professional products available from a single source.

Consolidate vendors – one-stop shopping in multiple categories reduces vendors, makes “making freight” easy. Improve your turns and your margins.

In-depth knowledge – experienced team with comprehensive knowledge of applications, specifications and best practices.

We are available to:

Assist with material take offs

Prepare submittal packages

Provide itemized material quotes

Interface with your customers
when needed

See www.TChristy.com for other waterworks solutions including:

- Marking Tape and Marking Products
- Solvents and Sealants
- Marking Paint
- Tools and Job Site Essentials
- Geotextiles
- Test Gauges

Comprehensive US service via distribution centers in Anaheim, Sacramento and Nashville
