

#### PRODUCT SPECIFICATIONS

Color	Black with Lines Every 12"
Tensile Strength	90 x 53 LBS
Puncture	61 LBS
Trapezoid Tear	47 x 26 LBS
Thickness	24+ MILS
Water Permeability	12 GAL/MIN/SF
Burst	150 PSI
UV Resistance after 500 hours	80% Strength Retained
Weight	4.1 OZ/SQ. YD.

## 4.1 oz. WOVEN NEEDLEPUNCH FILTER FABRIC

Christy's® 4.1 oz fabric is a 4.1 ounce FLW landscape/geotextile application product. The product contains a 3.1 oz. slit film woven polypropylene fabric with a 1 ounce capped needled polyester fiber. It is UV treated to stand up to rigorous sun exposure. Known for its tremendous strength properties, this product is used for tough weed barrier applications such as rock, hills and extreme slopes.

- **20 year warranty**
- **Professional grade**
- **Reduces runoff on slopes/keeps decorative material in place**
- **Minimizes rutting/low spots and ground heave**

**Applications:** Septic and Drainage Systems, Soil Separation, Soil Stabilization, Retaining Walls, Weed Barrier, Landscaped Slopes, Under Wood Decks

**Industries:** Agricultural, Irrigation, Waterworks
