

RED HOT VINYL™: SLOW SET

Red Hot Vinyl Adhesive is a versatile, high-performance adhesive that can be used on all types of PVC trim, fence, windows, molding, railing, deck, siding and furniture for installation, fabrication and repairs. It has been carefully formulated to resist UV-degradation and to retain a clean appearance year after year, and is available in white.

Red Hot Vinyl Adhesive Slow Set is a white, extra heavy bodied, slow setting, high-strength adhesive and dries to a waterproof bond. The bond is flexible and once cured, is not affected by weather and temperature extremes. It is highly resistant to oil, fuel, grease, and many other chemicals.

Red Hot Vinyl Adhesive Slow Set also offers UV-stable outstanding performance and will not discolor, yellow or crack with exposure to UV. It is ideal for installing, mending and gap filling with white substrates. **The slow setting speed allows longer working time, preventing drips and sags, especially when used on vertical surfaces.**

PRODUCT SPECIFICATIONS

Adhesive Uses:	PVC trim, fence, windows, molding, railing, deck, siding and furniture.
----------------	---

Color	White
-------	-------

Relative Set Time*	Slow Set
--------------------	----------

Brookfield Viscosity	Minimum 210,000 cps
----------------------	---------------------

Specific Gravity	Typical 0.981 ± 0.04
------------------	----------------------

Max VOC Emissions	≤ 510 g/L per SCAQMD Rule 1168 Method 316A
-------------------	--

Shelf Life	3 Years
------------	---------

- Vinyl Adhesive specially formulated for use on trim, fence, windows, molding, railing, deck, siding and furniture.
- High strength, superior adhesion with long-term UV stabilization.
- Formulated to retain and maintain color integrity.
- High viscosity for optimum gap filling between bonding surfaces.

* Set and cure times are affected by ambient temperature. If working in cold environments keep product in warm place.

Refer to Safety Data Sheet ("SDS") for safety precautions, first aid, storage, handling, transportation, and disposal information.
