Trim, Baseboard and more!

- ✓ Quick & Easy to Use:
Sets in 10 Seconds
- ✓ No Mess or Waste
- ✓ No Screws or Clamps
- ✓ Low Odor

NEW From #1 Contractor Preferred Brand

Christy's MitreBond Construction Adhesive is a rapid set adhesive that will join and repair any material including wood, glass, ceramic, steel and plastic. Once activated, the adhesive sets in less than 10 seconds without the use of clamps, screws or fasteners.

Adhesive Sets in 10 Seconds

- Glue is workable until paired with activator.
- One bottle of glue can make 100 joints / repairs.
- Joints or repairs do not need to be clamped.
- No fasteners are required.

Activator Pen Eliminates Mess

- Pen allows precise placement of activator. Works just like a marker.
- No overspray mess that is common with spray activators.

Works on Most Materials, Indoors & Outdoors

- Molding, Trim & Baseboards
- Valence, Rails & End Strips
- Crafts, Hobbies & Toy Repair

655 East Ball Road, Anaheim, CA 92805-3310

MitreBond is the original and strongest quick setting adhesive on the market.

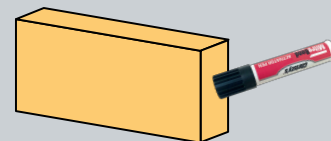

No nails, no clamping, no waiting - no mess!

1. Apply one or two drops of MitreBond adhesive onto one side of joint.

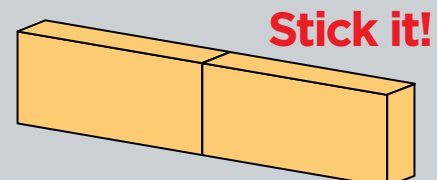

2. Apply activator to other joint with convenient MitrePen

Activate with pen.

3. Quickly align the two pieces, firmly press together and hold for 10 seconds.
