

## California Proposition 65 Compliance Letter

November 2, 2022

Re: Request for Confirmation of Compliance for with CA Prop. 65

Proposition 65 (Prop 65) is a California initiative that became a state law in 1986 (updated in August 2018) known as the Safe Drinking Water and Toxic Enforcement Act. This act sets out environmental regulations regarding toxic chemical substances that businesses are subject to when they sell merchandise in that State.

Christy's has completed a thorough Prop. 65 Review of its products to ensure all SDS, TDS, and labels are compliant with the latest Prop. 65 regulations. All Proposition 65 chemical information, which includes all listed chemicals at or above Safe Harbor limits, are found on our updated Safety Data Sheets in Section 15. This information is according to the SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986, CHEMICALS KNOWN TO THE STATE TO CAUSE CANCER OR REPRODUCTIVE TOXICITY as listed in the December 31, 2021 update.

To request the latest SDS, or for further information, please contact me or your customer service representative.

The above information is based on our current level of knowledge from our internal reviews and all our material and component suppliers. Any impurity or trace elements not disclosed by our suppliers cannot be excluded.

Best Regards,
