

Red Hot Quick Fix™

One-Step PVC Cement for Quick Repairs

Christy's Red Hot Quick Fix offers a perfect solution for fast repair of PVC pipe systems up to 1 inch in diameter.

With our convenient applicator / dispenser cap, this medium bodied, very fast set solvent cement is applied from the tube to pipe and fittings quickly, easily and with little to no mess (see directions below).

Quick Fix also works in wet conditions so you can get right work on your repair in wet or dry environments.

The cement is blue when applied and changes to clear when set, creating a clean, finished appearance.

SPECIFICATIONS

Body: Medium

Set Time: Very Fast Set

Color: Blue to Clear

Max. Pipe Size: 1 inch

Meets: ASTM D2564

HERE'S HOW IT WORKS:

- 1** Remove cap from tube
- 2** Flip to pierce tube seal
- 3** Flip to apply cement
- 4** Squeeze and Rotate
- 5** Push pipe together, Hold and wipe
- 6** Wipe cap and flip to store
